

## PRESS RELEASE

# GMR Aero Technic Announces Partnerships during Wings India 2024

- *Signs MoU with Lufthansa Technik AG*
- *Forges Strategic Partnership with Spirit Aero Systems for Aircraft Nacelle Component Repair Services*

**Hyderabad, 19<sup>th</sup> January, 2024:** GMR Aero Technic (GAT), MRO division of GMR Air Cargo and Aerospace Engineering Ltd. (GACAEL) announced partnerships with Lufthansa Technik AG (LHT) and Spirit Aero System today at the Wings India 2024 in Hyderabad.

A MoU was signed between GAT and LHT. As a part of this initiative GAT and LHT have mutually agreed to bring the innovative technology utilized by Cycleclean jointly at Indian airports for the operators in the region.

**Cycleclean®** is an efficient and eco-friendly engine cleaning system that saves water and fuel and cuts down on emissions by washing aircraft engines. The system guarantees a clean and safe collection of all wastewater without any negative impact on the environment.

A strategic partnership was forged with Spirit Aero Systems, one of the world's foremost manufacturers (ORM) of aero structures as well. This groundbreaking partnership establishes a cutting-edge Aircraft Nacelle component repair service at the GMR Aero Technic Base Maintenance Facility in Hyderabad. This collaboration marks a significant milestone in GMR Aero Technic's MRO journey, establishing its role as a one-stop destination for Nacelle repair services.

**Speaking on this momentous occasion, Mr Ashok Gopinath, President & Accountable Manager, GMR Aero Technic said,** *"The partnerships with Lufthansa Technik AG and Spirit Aero Systems exemplify our commitment to delivering exceptional value through innovation using the latest technology solutions in providing enhanced operational efficiency for our MRO customers. With these augmented capabilities, the strategic move will position our MRO facility as a go-to hub for customers. This service offering is a value add for our base maintenance customers."*

Lufthansa Technik AG is headquartered in Hamburg and is the world's leading provider of technical aircraft services. These include the maintenance, repair and overhaul of aircraft, their components and engines (maintenance, repair, overhaul; MRO). Around 4,500 commercially operated aircraft are currently under contract, accounting for around one in five commercial aircraft in the world.

Spirit AeroSystems, headquartered in Wichita, Kansas, is renowned globally for its expertise in aluminium and advanced composite manufacturing solutions. The company's core products encompass fuselages, integrated wings and wing components, pylons, and nacelles. With a strong presence in the U.S., U.K., France, Malaysia, and Morocco, Spirit AeroSystems is a key player in the commercial aeroplane, defence platform, and business/regional jet markets, serving both original equipment manufacturers (OEMs) and the aftermarket.

**About GMR Aero Technic**

GMR Aero Technic (GAT) is a leading airframe Maintenance, Repair and Overhaul facility based at Rajiv Gandhi International Airport, Hyderabad, India, having DGCA-India, and other International approvals such as EASA, FAA-US, PACA-Oman, CAA-Vietnam etc. GAT provides complete maintenance support to airline operators and ensures that customers meet their operational timelines. GAT is committed to provide on-time deliveries with its comprehensive and integrated MRO solutions.
